RENE GONZALEZ ARCHITECT CREATES WORK THAT IS INFLUENCED BY EXTERNAL FACTORS INCLUDING SKY, WATER, AND VEGETATION TO DESIGN BUILDINGS THAT ARE INEXORABLY LINKED TO THE CULTURAL AND NATURAL ENVIRONMENT BEYOND THEIR PHYSICAL BOUNDARIES.

Rene Gonzalez Architect (RGA) creates buildings that actively engage in a "design conversation" with their surroundings. Founded in 1997 in Miami, the multi-award-winning firm believes that a building is inexorably linked to the cultural and natural environment beyond its physical boundaries. The firm's designs are influenced by external factors, both ethereal and earthly, including sky, water, vegetation, and the bustle of human activity. Detail-oriented and contemporary, the firm specializes in the design of museum and gallery spaces, exhibition design, hospitality, retail, and residential projects.

RGA's approach is always holistic, often engaging interiors, product design, and landscape design with the architecture. The results have been consistently harmonious, visceral, and dramatic. RGA strives to shift the perception of space and design, and evoke powerful emotions within the area residents occupy. The firm has been featured in more than 200 national and international publications. Gonzalez is the only architect in the last 50 years to be honored twice by the national AIA for projects in Miami. Additionally, AIA Miami recently presented him with its Silver Medal for Design and named the office as Firm of the Year.
